

A few weeks ago Council sent out a "Call for Sites" to you and I trust that you have received those papers with no problem. If you have not received those papers then you should contact me urgently since the closing date for submitting sites is only about two weeks away.

The purpose of this note however is to help with the site plan that you have to prepare along with your site submission form. The maps I sent you are not suitable for marking possible sites – they are too small scale. You need to obtain a suitable site plan map from one of the many suppliers (such as ukmapcentre.com buyaplan.co.uk requestaplan.co.uk) out there which a Google search will easily throw up. Generally, these maps are used to submit planning applications and are the right scale and size for this sort of site submission.

The Council is currently employing Berrys of Hereford as planning consultants on another project. Berrys will be pleased to assist you with the site submission process if that is helpful and in the first instance you should contact PJ Triplow on 01432 809833

If you have any queries about the "Call for Sites" process please get in touch

Yours sincerely,

W A Brazier
Chairman, Pencombe Group Parish Council
